Rest APIs & JSON | Context API for managing application-wide state Firebase, Contentful
Github & GitLab, JIRA, Trello, and Clickup

Experience

(5 Years)

Tech Bridge Consultancy / Front end Developer
DEC 2021 - PRESENT, LAHORE

Worked on in-house products and client services, delivering scalable web applications across CRM, auditing, and e-commerce domains. Collaborated with cross-functional teams and led rapid project turnarounds under tight deadlines.

Key Projects:

- **Dashboard** – Developed complete frontend and backend for Hattori Hanzo Shears reporting system (Coldfusion) used by reps, leads, and admins.
- CRM – Built the frontend of a full-scale CRM from scratch (Angular 16).
- Recovery Module – Designed and developed the entire frontend for a recovery management system.
- Call Center Solution – Created the frontend from scratch for a SIP.js-based call center platform.
- Lead Attendant – Led the team and resolved bugs to launch a campaign management platform within 2 days.
- Ramper Audit – Built the full frontend for a U.S. auditing platform (demo-ready).
- Installmart, LinkForAll, SuperMeds, Fast Meds UK – Developed full ecommerce frontend with CMS, auth modules, and account features.

JAAMIAH.COM / Frontend Developer

DEC 2019 - NOV 2021, ISLAMABAD

A startup under the Student Startup Business Center (SSBC), COMSATS University, working in collaboration with the Higher Education Commission (HEC) to reduce Pakistan's literacy gap.

- Worked across product design and development, team management, and HR operations. Took key projects from wireframes to production while leading cross-functional teams.
- Learning Management System (LMS) – Created initial wireframes using Figma to define the product experience.
- Student Information System (SIS) – Designed UI in Figma and implemented it using Next.js.
- Manage Directory – Transitioned to Manager (HR) role; led the team, defined KPIs, and coordinated full product updates within 3 months.
- HR Operations – Recruited, screened, and onboarded employees. Handled payroll, policy creation, and employee training.

I-Intellect / Jr. Frontend Developer

FEB 2019 - SEP 2019, Abbottabad

A project-based software company delivering custom solutions by hiring skilled resources through freelance and outsourcing platforms. Contributed to multiple frontend projects, evolving from static HTML/CSS work to dynamic web applications using modern JavaScript frameworks.

- Converted PSD and Zeplin designs into responsive HTML/CSS with jQuery.
- Developed web applications using React, Next.js, and Gatsby.
- Integrated functionality and interactivity into UI components.
- Worked with GraphQL and Firebase for data handling and real-time updates.
- Built custom email templates and contributed to Marketo UI enhancements.
