Work Experience

Tech Bridge Consultancy

Sr. Frontend Developer | Team Lead

Dec 2021 - Present

Lahore

- Led the frontend development of multiple large-scale web applications using Angular (v13–v16), focusing on performance, accessibility, and responsiveness.
- Developed feature-rich applications including CRM, Call Center Solutions, Lead Management Systems, Auditing Apps, Reporting Dashboards, Kanban Boards, and E-commerce Platforms from scratch, with a strong focus on scalability, maintainability, and modern UX/UI standards.
- Designed and developed an Auditing Web Platform from scratch, implementing dynamic interfaces, interactive data visualizations, and secure role-based user access to streamline auditing workflows.
- Resolved critical bugs and optimized UI/UX across multiple in-house and client-facing projects, consistently delivering high-quality fixes and improvements under tight deadlines.
- Collaborated closely with backend teams (Laravel, MySQL) and integrated real-time features using WebSocket and SIP.js.
- Mentored and taught junior developers, providing guidance on frontend architecture, Angular best practices, and code quality through regular code reviews and pair programming sessions.

JAAMIAH.COM

Frontend Developer

Dec 2019 - Nov 2021

Islamabad

- Designed wireframes for the Learning Management System (LMS) using Figma, enhancing UI/UX and streamlining the design workflow.
- Developed and implemented responsive interfaces for the Student Information System (SIS) using Next.js, improving system usability and performance.

Alpha Squad

Associate Frontend Developer

Feb 2019 - Sep 2019

Abbottabad

- Started as an intern and progressed to Junior Frontend Developer, building a strong foundation in HTML, CSS, and JavaScript by converting PSD and Zeplin designs into responsive web pages.
- Gradually advanced to working with modern frameworks such as React.js, Next.js, and Gatsby, contributing to improved performance, maintainability, and faster project delivery.
- Added interactive features and UI enhancements, significantly improving user experience and engagement.
- Integrated GraphQL and Firebase, streamlining data handling and enhancing application responsiveness.
- Developed custom email templates, improving brand consistency and communication effectiveness.

Projects

Liteforce Therapy Laser

Alpha Squad

Mar 2019 - Sep 2019

Abbottabad

- Converted PSD designs into responsive HTML/CSS and integrated frontend components.
- Contributed to performance improvements and cross-browser compatibility.

JAAMIAH.COM

Comsats University of Islamabad, Islamabad

- Designed and developed frontend for LMS and SIS using Next.js.
- Led UI/UX design using Figma and managed HR operations for team growth.

Open Mic Cafe

Dec 2021 - Dec 2021

Tech Bridge Consultancy

Lahore

- Designed and developed a single-page cafe website with custom styling.
- Optimized loading time and integrated Google Maps and menu display.

Ramper Audit

Feb 2022 - Aug 2022

Tech Bridge Consultancy

LA, USA

- Developed auditing interface from scratch using Angular.
- Implemented real-time data capture and admin reporting tools.

E-Commerce Website

Jan 2022 - Present

Tech Bridge Consultancy

Lahore

- Developed E-commerce Platform from scratch, building a flexible codebase that supports multiple client requirements.
- Customized platform for clients with various modules, such as inventory management, checkout flows, admin dashboard and user authentication.
- Worked on Installmart, LinkForAll, Fast Meds Store, and Super Meds UK, tailoring features like product pages, real-time inventory updates, and mobile responsiveness, while adapting to each client's unique design requirements.

CRM

Dec 2022 - Present

Tech Bridge Consultancy

Lahore

- Created CRM system from scratch, laying the foundation for flexible modules adaptable to each client's needs.
- Designed custom dashboards, lead tracking systems, and integrated modules like real-time notifications and role-based access control for clients.
- Tailored CRM functionalities for clients by adding features like recovery modules, marketing dashboard, customer care module and lead management system, depending on specific business requirements.
- Delivered custom CRM solutions for clients such as Funnel Drop, Park View, Union Developers, Blue Pines, New Lahore City, Tech Bridge and GE Electronics, tailoring features, workflows, and design to meet their unique business needs.

Call Center Solution

Apr 2023 - Present

Tech Bridge Consultancy

Lahore

- Designed and developed custom call center dashboards, enabling real-time visibility into call activities, agent performance, and lead flow.
- Integrated modules such as real-time notifications, role-based access control, and call tracking tailored to client-specific workflows.
- Seamlessly integrated with the CRM system, ensuring that leads captured through the call center are automatically transferred and tracked within the CRM pipeline.

Hanzo Lead Attendent

Sep 2022 - Present

Tech Bridge Consultancy

California, USA

- Provided critical bug fixes and performance optimizations under tight deadlines for an Angular-based real-time lead management system.
- Worked with WebSocket and JSSIP to ensure stable, real-time communication and seamless lead handling.
- Maintained code integrity and system reliability during active production use, supporting live users without downtime.

Hanzo Shears – Reporting Dashboard

Jan 2025 - Present

Tech Bridge Consultancy

California, USA

- Developed a custom Reporting Dashboard from scratch for sales representatives, featuring role-based views for Admins, Team Leads, and Sales Reps.
- Adapted to a completely new tech stack, working with ColdFusion and SQL Server to deliver robust and dynamic data visualizations.
- Seamlessly integrated the dashboard into an existing application, aligning it with the client's existing theme and frontend architecture.
